# General Summer Clearance Sale.

The difference between the old fogies of the past and present and the LIVE business men of to-day is shown in the bargain season. The old way was to wear out the goods in the store if they could not get their full price for them, but now we clear them out as soon as they get the least bit soiled, broken in sizes or overstocked, at a price which insures their rapid sale. This stimulates trade, benefits the people who get them and makes rooms for fresh goods. Our Clearance Sale is for this purpose. Since the opening of our Summer Sale we have sold several thousand pairs of Shoes. As yet, too many remain. We are going to try a SHORT RUSH SEASON, beginning with to-day. We are going to offer you Shoes at prices never before made in the history of Shoe sales in this city, and here's a partial list of the bargain offerings:

KEMMLER'S EXECUTION. Everything in Readiness for the Pulling

of the Deadly Lever. AUEURN (N. Y.), August 5th.—The best judg-nent which it is possible to form with informa-ion at hand is that Kemmler will be executed

AUBURN (N. Y.), August 5th.—The best judgment which it is possible to form with information at hand is that Kemmler will be executed to-morrow morning.

"I don't propose." said Warden Durston at noon, "to state when this man will be taken off, but this thing is going to be all right."

"Are you going to spend your afternoon fishing?" he inquired of an individual to whom he had been speaking—a plain intimation that the killing was not to take p'ace this afternoon, but leaving it an open question whether or not it may take place during the evening. This, however, is improbable.

Several of the wilnesses have arrived this morning, but not more than a quarter of them, and it is not likely that the Warden would employ the indecent haste which would be involved in hurrying his witnesses, travel-stained and unbathed, into the room where they should witness the death of a human being before having got the cinders oat of their eyes.

No tidings of Kemmler's condition have come out of the prison to-day, and any inquiry about it has almost ceased to be made.

It is now thought likely that Andrew Crooks, a convict, will be the man who will pull the deadly lever. The announcement has not yet been made positively, but the circumstances all point to it. Warden Durston has finally decided to change the execution room, and under the direction of Electrician Davis, who arrived this morning, the wires and switch board were moved. The keepers' mess room will be the new execution room.

The condemned man has kept up his courage in a wonderful way. A gentleman who will be present at the execution visited Kemmler this afternoon. He found him perfectly caim, but suffering from heat. Kemmler made his will again, leaving his books and other little traps to Mrs. Durston, Daniel and a few others who have been kind to him. This afternoon holy communion was administered to Kemmler by Chaplain Yates and Rev. Mr. Houghton.

The second separate company of the National Guard of New York, Captain Kirby, has been ordered out for this evening, ost

LATER. AUBURN, August 5th.-Kemmler will be executed shortly after 6 o'clock in the morning. He took the announcement calmiy.

ANOTHER TERBIBLE EXPLOSION. A Drug Store Terribly Wrecked in Den-

ver. DENVER, August 5th .- Another explosion oc curred here this evening. The result will probably be more fatal than the one yesterday. At 9 o'clock J. D. Gorrell, a clerk in W. A. Mitchell's pharmacy, at the corner of Twenty-third and Welton streets, went down in the cellar for some goods. On reaching the foot of the stairs he struck a match, when six tengallon cases of benzine exploded with terrific force.

into the street and a customer standing by the door was hurled some twenty feet and badly bruised and cut. Gorrell was blown out of the cellar by the explosion and escaped by the rear door in some miraculous manner. He was found a few minutes later wandering in the alley in a demented condition from his burns, which were tearful. He was taken to the hospital, where it was found that his body was one great blister, some of the flesh adhering to his clothes when removed. His recovery is doubtful. re department was on the grounds promptly.
When it arrived the walls were standing, but

When it arrived the walls were standing, but began to totter soon afterwards, and a second later tumbled to the ground, a mass of broken timber and brick.

This was so sudden that the firemen were unable to get to a place of safety, and three were caught in the ruins. Fireman Pat Gallagher had both legs broken and was injured internally, and Charles Craig, driver for the chief patrol, had both legs broken, and was badly cut and bruised. The other two were severely injured, but not seriously.

On the second floor of the building were a number of roomers and it is feared some of them, while attempting to escape, were caught in the falling building and crushed to death in the ruins. The fire was extinguished within half as

hour after the first alarm. The department and a force of men are now at work clering the debris. It is known that all the employes of the store, with the exception of Gorrell, es-Mr. Mitchell is now in New York city, Gor-

AN ORPHAN CHILD. Inquest.

CHICAGO, August 5th.—A curious circumstance was developed at an inquest on the babe which Mrs. Frances Rus-ell is accused of having starved to death. Mrs Russell admitted, when placed under oath, that notwithstanding the \*ccepted belief and her own previous statements, the infant is not her own. The woman then stated that she obtained the child from an orphan asylum and palmed it off on her husband as their offspring. The reason she assigned for the deception was to prevent trouble in her family. By means of drugs taken to quiet her nerves, she unintentionally miscarried. To hide it from her husband she brougat home the child. Thomas Russell, the befoled husband, was intensely angry on hearing his wife's testimony. "I did not know until this moment that the child was not ours," he said. Mrs. Russell was held without bail to await the action of the Grand Jury. CHICAGO, August 5th. - A curious cir

Capability of Brazil for the Culture of

New York, August 5th.—Salvador De Mendonea, who was the Brazilian delegate to the PanAmerican Conference, continues to urge reciprocity so far as Brazil is concerned, and this evening furnishes some interesting statistics concerning the capability of Brazil for sugar culture. He says Brazil now produces 600,000 tons of sugar annually and only 400,000 tons of cofiee, still sugar culture is not a paying industry in Brazil at present. A bit of truth is that Brazil can supply the entire demand of sugar for the United States within three or five years. Either Pernambuco, Bahia or Rio de Janeiro can at two years notice produce 500 000 tons each of brown sugar, even setting aside the territory in the States of Goyaz and Matto Grosso, larger than the whole of France and the Germany together. The littoral zone of sugar production in Brazil extends from 4° north of the equator to 26° south of the equator, with the development of 1,800 miles of sea coast and an average breadth of 100 miles into the country. The land is unsurpassed for the culture of sugar gare. The land is unsurpassed for the culture of sugar

The Government Should See that They Are Preserved. NEW YORK, August 5th .- Commenting on Go New York, August 5th.—Commenting on Governor Waterman's protest against the destruction of the big trees of Tulare county, the Tribune says: "The interest in preserving these magnificent trees ought not to be confined to that State. These are the noblest trees on the continent, and the preservation of the last clumps remaining, under Government control, is a matter of national concern. Secretary Noble, we earnestly hope, will find it practicable to comply with Governor Waterman's request, and close, temporarily, the section in Tulare county where the grand trees are found. The order increasing the force of the Kittery Navy Yard looked as though the design was to use Executive power for partisan purposes. He referred to the great evil which would result from the introduction of politics in the navy yards, and going back to the administration of the Navy Department by Secretary Robeson, cammented severely upon the action of that official in filling the navy yards with partisan friends just previous to Congressional elections. He charged that the Kittery yard was used for political purposes, and quoted figures to show that previous to elections the list of employes was much larger than it was a month or two afterwards. Boutelle said he felt like making an apolog

of Congress. In the remarks made and in the newspapers there was a strong implication that somebody had an idea that in Maine and New Hampshire there was a purpose to practice the colonization method. The Constitution of Maine provides that every voter shall have a legal register of three months at the place. Maine provides that every voter shall have a legal residence of three months at the place where he was to vote.

P. Collunden, Chief of the Commissioners' patrol system. The subject was not referred to during the meeting, however.

The report of W. B. Bradford. Superintendent of the Fish Hatcheries, was also presented to the Board, the statement being given out that efforts had been made during the month to secure trout eggs at the mouth of the streams flowing into Lake Tahoe.

At the Shovel Creek Hatchery 1,600,000 eggs of Rainbow trout had been obtained, of which one million had been shipped to the Sisson Hatchery. NEEDLES (Cal.), August 5.—A cloud burst in the mountains in the Eastern part of Mojave county, Arizona, last night, washed out a bridge two miles west of Yucca. The east-bound two miles west of Yucca. The east-bound freight, due at Yucca at So'clock, was precipitated into the river, killing the fireman, William Neil, slightly wounding engineer Harsher and seriously scalding brakeman Sutton.

The San Francisco express due at Needles last night at 6 o'clock was delayed by washouts near Williams, Arizona, and only reached Yucca a few minutes after the freight accident, having a narrow escape, After the bridge was fixed up the train came on, closely followed by the Los Angeles express, which had overtaken the first one. When near Needles, at 12:30, and when running fast, a Pullman car on the San Francisco train left the rails, throwing the tourist car just ahead of it over on its side. Wm. Henauit, of San Antonio, Tex., received some bruises, but the other passengers miraculously escaped with a slight shaking up.

We are told by local journals of the metropolis that at the indignation gatherings of the strikers and their sympathizers, there is little regret expressed for the tragic events of Saturday evening, but that the chief complaint is that the men assailed by strikers use weapons to defend themselves when they are assaulted by the fists of the strikers. This is in itself the coufession of condemnation. It amounts to a claim that the strikers have a right to beat their opponents to a jelly, and that the victims are expected to offer no resistance with arms. To-morrow the residents in the district south of the city are to hold a levee meet ing. It is said that a spirit now dominates among them that means thorough reconstruction of their levee system and the making of it impregnable to the assaults of the river. The question now before them is levee reform. We say to them that any patchwork will be folly. They cannot afford to have any more of this business of fighting the rise of the waters by inches. What they need to do is to make their embankments so high, thick and strong and keep them so clear of attractions for rodents that the whole resident portion of the district can slumber in peaceful content when the river is at the highest possible flood hight. They can afford to do precisely that. It will cost considerable money, but its expenditure will more than repay; even if the sum has to be borrowed at current rates of interest it will be a wise investment, an economic procedure This has been demonstrated on Grand Island. It has been proved in half a dozen reclamation districts below the city, and it is clear that it will pay in the case in hand.

## HE WAS ASHAMED

To Ask Again, but His Frank Letter Got It for Him.

A few months ago one of the unfortunate inmates in the San Francisco Almshouse was inspired by the sensational statements in the newspapers with the belief that Joy's Vegetable Sarsaparilla would help him. But without money, how to get it was the question. Finally he wrote to the Edwin W. Joy Co., appealing to their generosity, and it was not unheeded, the coveted preparation being sent by the next parcel delivery. Its effect is best told in a subsequent letter, from which we quote the following: -

"I suppose you know me by this writing, and my circumstances and condition. Although improving, I ask of your generosity for another bottle of your Joy's Vegetable Sarsaparilla. Its laxative action is perfection itself. It has so thoroughly regulated my system that my catarrh, rheumatism, constipation, and headaches are all better. I feel ashamed to ask in this way, but what shall I do? I thought I might not need any more, but I am now so anxious to keep it up; but you see how it is."

AGENCY UNION INSURANCE COMPANY f applied for within the NEXT SIXTY St. Gertrude's Academy, Rio Vista, Cal. THIS INSTITUTION WILL RE-OPEN FOR

This institution will, reform for the next scholastic term, Monday, 11th inst. The pupils will find it to their advantage to be present at the formation of the classes.

This Academy is situated in one of the most healthy sections of Solano county, and being on an eminence in the rear of the town, receives, through a break in the Montezuma hills, the cool, refreshing breezes from San Francisco bay; thus making the climate a most agreeable and healthful one. The thorougally furnished classrooms, well-appointed dormitories, musiz-rooms, studios, exercise grounds, etc., together with the advanced course of learning and varied accomplishments, in which young ladies are so desirous to excel, have attracted students from far and near. From nearly every county pupils have been received, among whom are young ladies from Siskiyou. Tuolumne, Los Angeles, San Jose and even Nevada. Several of the former pupils are engaged in teaching, both in public and private schools—the Academy being incorporated is entitled to confer academic honors. This year, Dress-making, with cutting and fitting, will be taught at the Academy to those who desire it; also, Cooking in all its branches by an excellent French cook. Besides the common English branches. Stenography, Type-writing, Instrumental and Vocal Music, Photograph Drawing, Pastel, Painting in Oil and Water Colors, also Painting on Porcelain, are taught, in all of which the pupils show much proficiency. proficiency.

Every advantage is given to the students, not only to enable them to pursue an academic course, but also to train them in the duties which will fit a young lady to take her.place in the social as well as the domestic circle, and to become a source of comfort to her parents and an ornament to society.

The institution is sufficiently removed from the large cities to be a quiet, sudious home for all those who desire such for their children. There are two boats daily from San Francisco and Sacramento—one leaving Jackson st wharf at li a. M., the other from Market-st. wharf at l. P. M. The fare is Sl, and the boats are comfortable and have kind and obliging officials. The terms of this school are very moderate, considerate.

terms of this school are very moderate, considering the advantages the pupils enjoy.

A magnificent "stars and Stripes" floats over the exercise grounds since July 4th—it, as well as the entire institution, being the gift of noble, generous Mr. and Mrs. J. Bruning to the Sisters, who have charge of the establishment.

A Lovely Camp, Swept by the Soft Ocean Breezes-What the Soldiers and Visitors are Doing

SANTA CRUZ, August 3, 1890. Camp Stanford is the prettiest camp ever held in Santa Cruz by the First Artillery Regiment, and probably the most picturesque of any that has been laid out by the State militia. It is located in the large field about three-quarters of a mile north and west of the city, and the tents are pitched about 500 yards south of where

Each company has thirteen wall-tents-Ten of them are for the enlisted men, and three for the commissioned officers. Company G occupies the row on the extreme left. Across the street Company C is quartered, and adjoining them comes Company A's line of tents. Across the main avenue opposite A's quarters, are Company F's tents, and to the right of them Company Captain Cook and his Company B occupy the row on the right of the camp. Colonel Guthrie's tent is a handsome. large one, and on either side are those of the staff officers. The band, signal corps, and non-commissioned staff are in the

rear of the headquarters' tent. Two tents which a person first meets in coming into camp by the road constitute the guard house. The dining tables and kitchen are about 100 yards to the rear and west of the camp. They are admirably located among the trees and are shaded at all times of the day. As an extra precaution, however, canvas has been stretched above the tables where the enlisted men

The table for the officers and ladies is so well secluded that it needs no canopy.

In describing the camp it would not do to omit mention of Lieutenant Maydwell, the Quartermaster of the regiment, who superintended its laying out, and who has more work to look after than probably any officer in the camp. Under his direction every little detail was perfected. He had built a shed for the purpose of storing the supplies, and it will be found to be a great Barney Dean did not take the contract for superintending the culinary depart-ment, so the regiment hired its own cooks

The mist did not lift until noontime, and then everybody gathered on the beach. The weather was not as agreeable as was hoped for, but, notwithstanding, hundreds went into the surf, and besides enjoying themselves they served as means to the amusement of others who lounged about upon the sand. Major Wallace never misses his daily sea bath, and in his red and white bathing costume he looks youthful, and is certainly a conspicuous figure. By the way, this may be the reason why the Major is found in the surf most of his He was also the hero of the beach to-day, having succeeded in stopping a runaway team and averting what promised to be a serious accident. The carriage was filled with ladies, and on account of the breaking of the harness, the horses had started upon a furious runaway. The Major gallantly stopped the mad animals, repaired the harness and sent the ladies re joicing on their way again, apparently none the worse for their fright. Lieutenant Robie, of the Signal Corps, received the following dispatch to-day from

Barry & Co. were the lowest bidders, and being experienced, well-known and responsible contractors, will doubtless receive the contract for the work. Mr. Barry, however, called the attention of the Board to imperfections in the plans on which the bids were made. These called for a 16-foot structure, whereas it should be, he thought, at least twenty feet wide, so that teams could pass thereon at night. Further, the plans called for but three rows of piles, whereas, in his opinion, there should be four. Under the specifications, any quality of lumber could be used, instead of only that of the first-class being called for. He also pointed out other instances in which the specifications were wanting, and advised the Board to have better work

done than the plans and specifications called for. The matter was taken under advisement by the committee, which will to-day visit the locality and determine what class of work should be done there.

PERUVIAN POLITICS.

Trouble May Ensue Over the Contest for the Presidency.

New York, August 5th —The Herald correspondence from Lima, under date of July 31st, says: The struggle for the Presidency of Peru is still engaging public attention, and it is feared serious trouble will yet result. Since the retirement of Don Nicolas de rierola, the alleged favorite of the people, there are two candidates in the field—Dr. Francisco Rosas, President of the Senate, and Colonel Remigio Morales Bermudez, who is favored by the Government. Bermudez has never particularly distinguished himself as a statesman, although he is Vice-President and present executive. He is a good soldier and has an army at his back. The Vice-President on the Bermudez ticket is Dr. Pedro del Solar, who is of confessedly high ability, and who doubtless would be the moving agent behind the Presidential chair. General Caceres, President, is manifest'y a supporter of Bermudez, regarding Mr. Solar as his courselor, and will do everything possible toward defeating the desires of Congress in electing Rosas.

In the Republic generally the votes of the people were given to Bermudez, but as the prefects of the several departments merely obeyed the orders from headquarters, the object of Congress will be to nullify the elections on the pretext of fraud, and declare the legal choice of the country is Rosas. Should this occur, there can be but little doubt that immediate trouble and bloodshed would follow, and some are audarious enough to believe that President Caceres would imitate the example of Cromwell and proclaim himself Dictator until another vote could be taken.

Outbreaks have already occurred in the streets of Lima, the populace assaulting Dr. Rosas and the Presidency.

Senor Lestra, leader of the party which supports General Mitre, formerly President of the Republic, has been offered a seat in the Cabinet, but he declines to accept it.

It is rumored that a new issue of \$50,000,000 in paper currency will be made. A bill has been introduced in the Chamber of Deputies providing for a forced issue of currency. The National Bank has resumed payment. The Bourse is still closed and a panicky feeling in commercial circles continues. The press is forbidden by the Government to comment on the crisis. The premium on gold is 209. Rates of exchange are falling.

A VETERAN. I was wounded in the leg at the battle of Stone River, Dec. 31st, 1862. My blood was poisoned from the effects of the wound, and the leg swelled to double its natural size, and remained so for many years. The poison extended to my whole system, and I suffered a thousand deaths. Nothing did me any good until I took Swift's Specific, which took the poison out of my system, and enabled me to feel myself a man again. S. S. S. is the remedy for blood poison.
